## EXPERIENCE

---

### Fullstack Developer

2023 – Present

#### FutureBIT Technologies

Full Time · Germany, Thüringen

- Architected and deployed two cross-platform mobile applications with React Native for Pollmeier Massivholz, improving delivery data tracking for woodworkers and drivers.
- Developed and improved modules for a customer price-setting application for a leading German chemical manufacturer, achieving a 25–35% reduction in unintended underpricing and a 3–5pp margin uplift in affected product lines.
- Redesigned the corporate remote access tool, ensuring high accessibility for customers while keeping maintainability for developers.
- Standardized comprehensive technical documentation, reducing team onboarding time by more than 65% and enhancing developer collaboration.
- Engineered a daemon to automate notification delivery for the internal ticketing system, while performing maintenance and feature development to ensure platform reliability.

### Intern

Oct 2021 – Nov 2021

#### FutureBIT Technologies

Full Time · Germany, Thüringen

- Conducted the research and selection of a corporate ITSM ticketing system, centralizing company-wide technical support.
- Developed a secure authentication portal for a music streaming service prototype using React and Symfony.
